EVERGREENS

*An Excellent Assortment of
Varieties and Sizes*

We have manpower available for large scale digging.

A view of one of our evergreen blocks. Pictured above from left to right are grafted varieties of *Scopolorum* and *Va. Cannarti*. Trees in pictures are 2 to 3 ft. and 3 to 4 ft. compact, well sheared specimen plants.

Important Notice

We have extremely heavy reservations against our estimated stock this year and therefore are exercising a great deal of caution in booking additional orders until actual counts are available. Where we list items you are in need of, we solicit your orders and will do our utmost to supply you. Invariably there will be disappointments as numerous items are in very heavy demand and stocks are the lowest they have been in years.
